TATA POWER

Case study

Context:

- ❑ Tata Power is the largest integrated utility operating in India (assets of US\$16b and annual turnover of US\$7b+)
- ❑ Before RISE / S4HANA program, they were seeking a cost effective solution for SAP data extraction to low cost, long term storage for reporting & compliance

Solution:

- ❑ Managed data extraction as a service for SAP objects (SAP ERP, on-premise) including billing & compliance information
- ❑ SAP Tables & report extraction to on-premise NFS/ PostgresDB and Azure datalake using USB4SAP for no-code, low cost and long term storage

Impact delivered:

- ✓ **Reduced time to insight for SAP information by >40%**
- ✓ **Improved cost-to-serve for compliance reporting significantly**

“ Tata Power has stringent information storage & reporting compliance requirements. We are able to meet it at lower cost using USB4SAP.

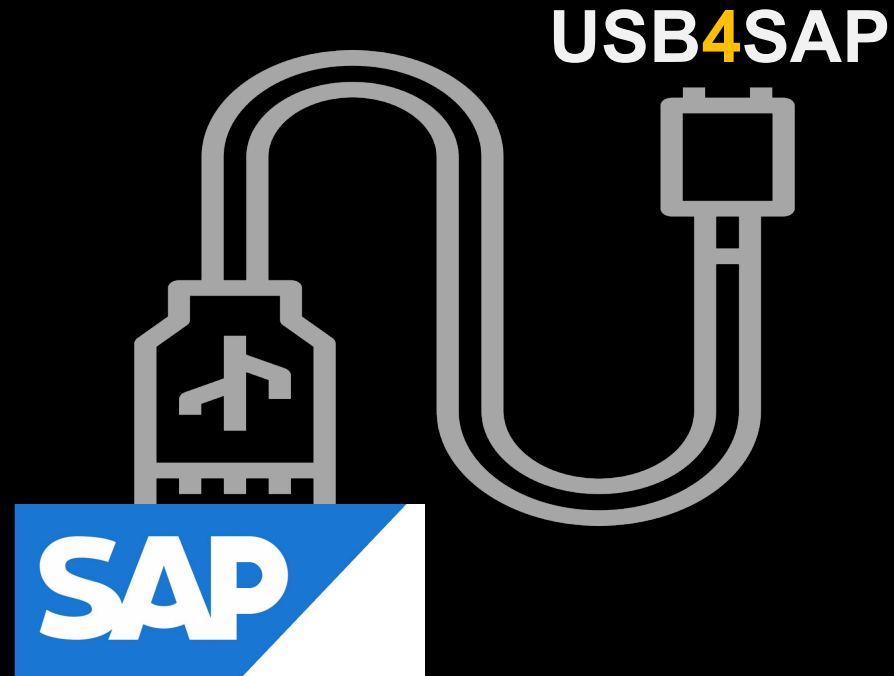

Ravi Jyothula, Head Digital & IT , Tata Power
